# Collaborative. Hanseatic. Expertise in international logistics services.

The logistics market is rapidly changing.

We at TERRATRANS are experts in individual transportation and logistics solutions.

Consistent. Over 40 years on the market. Our services comprise ocean freight, trucking, warehousing logistics and distribution for industrial and trading companies.

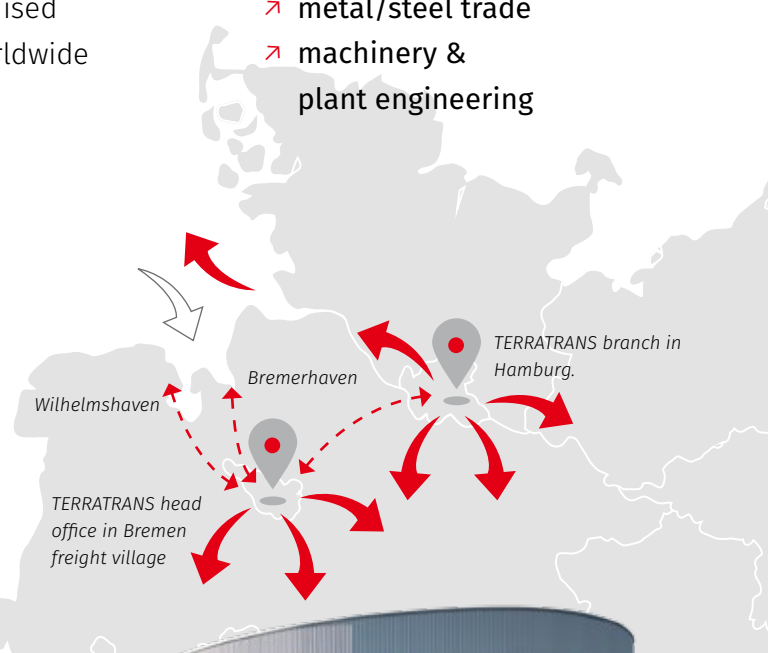

- Our 230 personnel will get your goods quickly and safely on their way.
- International contact partners ensure smooth communication in the language of your customers and partners.
- Our transport networks enable customised shipments worldwide or regionally.

TERRATRANS is the logistics expert and operates for all sectors. For example, for

- DIY stores
- furniture stores
- discount stores
- chemical industry
- tile/ceramic/marble trade
- metal/steel trade
- machinery & plant engineering

Our head office is located in the freight village in Bremen, where flows of goods condense. Germany's number one logistics centre is directly joined to the ports of Hamburg, Bremerhaven and Wilhelmshaven. With our own branches in Bremen, Hamburg, Lemgo, Verona and Sassuolo (Modena) we command regional bases at home and operate internationally.

## Traction on roads and rail. European-wide trucking services.

*We get your goods safely to any destination all over Europe. Our dispatchers find the best place for your full loads, part loads or piece goods in the TERRATRANS fleet. We use direct shipping to reduce terms, turnover rates and claims ratios in a sustainable manner and thus guarantee you the best quality.*

*Eco-friendly. Secure. Fast. TERRATRANS focuses on 'green logistics'.*

### ***We travel and leave little trace.***

Our modern traction units and trailers reduce CO<sub>2</sub> emissions. Assisted by GPS on-board communication, we find the fastest transport routes and bring your goods to the point of destination without taking detours. Our efficient part load management ensures economic use of loading areas.

### ***Combined freight transport on road and rail.***

On the routes Hamburg – Verona – Hamburg and Bremen – Verona – Bremen, TERRATRANS provides reliable, efficient and eco-friendly block train connections daily and moves 160 lorry units to and from Italy via Europe's number one "Quadrante Europa" logistics centre week after week.

## *From faraway countries in the best of hands.* **Worldwide ocean freight.**

*TERRATRANS is globally networked.*

*Through membership in the Far East Cargo Line and Centrolene networks we arrange the optimum exchange of goods in export and import between Europe and overseas. TERRATRANS collaborates with reputable and efficient network partners and offers customised transportation and logistics solutions.*

### ***The right balance:***

TERRATRANS is an expert in customised transport volumes by sea.

### ***Personalised service:***

**A contact person** for monitoring tailored transport of goods.

### ***Economical container usage:***

LCL/FCL consolidation and FCL/LCL deconsolidation

### ***From all major seaports.***

Our export and import services cover all important trading centres worldwide.

### ***Downstream logistics***

***from a single source with one contact person:***

- Export and import handling, customs clearance and in-house goods handling.
- Warehousing and distribution. Comprehensive services right through to the end of the supply chain.

# Complete service for your supply chain. Warehousing logistics and distribution.

*TERRATRANS delivers your goods safely and quickly from the producer to the destination. Tied to our transport services, we provide benefits for your flows of goods with our comprehensive warehousing logistics. Optimally coordinated with your requirements.*

✓ **100,000m<sup>2</sup> storage facilities** provide space for your goods.

✓ Trained personnel and **modern material handling vehicles** ensure smooth goods handling.

✓ Value-added services such as quality control, order picking, repackaging, neutralisation and goods labelling make TERRATRANS your partner for **seamless distribution of goods**.

✓ **Customs warehouse and customs clearance** ensure that import and export activities are performed expeditiously.

✓ **Smart IT** provides interfaces for your software solution, allowing for smooth exchange of information and data and enabling orders and flows of goods to be monitored.

✓ Order picking, packaging, insuring and distributing of an individual package right through to full container loading for **e-commerce logistics** (online shop).
